

***THE EUROPEAN
AUTO FIELD TRIP
CONFERENCE
J.P. MORGAN***

March 26, 2024

Michelin increased segment operating income to €3.6bn in 2023 and generated a strong €3.0bn in cash, reflecting the strength of the Group's strategy

Michelin delivered a high SOI despite adverse market conditions and currencies.

Demonstrating again the quality of its business model while improving people engagement and accelerating its sustainability roadmap.

Reflecting Group's strategy to capture the full value of its differentiated solutions designed to meet increasingly demanding customer requirements.

- Sales of €28.3bn, up 2.0% at constant exchange rates, with mix and price offsetting unfavorable market conditions. Non-tire sales up 10%
 - Tire sell-in markets globally flat but with an adverse mix, with OE growing in most segments while Replacement faced massive destocking
 - Tire sales volumes down 4.7%, reflecting the Group's strategy of prioritizing markets and segments that appreciate its unique value proposition
 - Price and mix effects up 5.7%, of which 1.2% of mix pulled by both products and geographies
 - Non-tire sales up 10% or €146m at constant scope of consolidation. The integration of Flex Composite Group is well on track
 - Negative 2.9% exchange rate effect as most currencies declined against the euro
- Segment operating income reached an all-time high of €3.6bn; margin up 0.7 pts to 12.6% of sales
 - Price effect lifted by the lagged impact of 2022 adjustments
 - Substantial mix effect resulting from market and segment targeting, combined with the Group's enhanced value proposition
 - Improved operating performance offsetting cost inflation factors
- Free cash flow before acquisitions of €3.0bn reflecting improving EBITDA and sharp reduction in working capital
 - EBITDA up 4% at €5.5bn or 19.4% of sales
 - €1.0bn reduction in working capital, driven by a decline in both inventory volumes and value
 - Positive €0.2bn contribution from JVs and associates, notably the TBC distribution JV in the USA
- ROCE of 11.4%, up 0.6 pts, reflecting intrinsic performance and active portfolio management
- Net income stable at €2.0bn despite -€0.6bn industrial restructuring provisions. Dividend of €1.35 per share submitted to the AGM up 8% vs 2022, share buyback program which could be worth up to €1 billion over the period 2024-2026
- 2024 guidance: > €3.5bn in segment operating income at constant exchange rates; > €1.5bn reported FCF before acquisitions ⁽¹⁾

2024

GUIDANCE

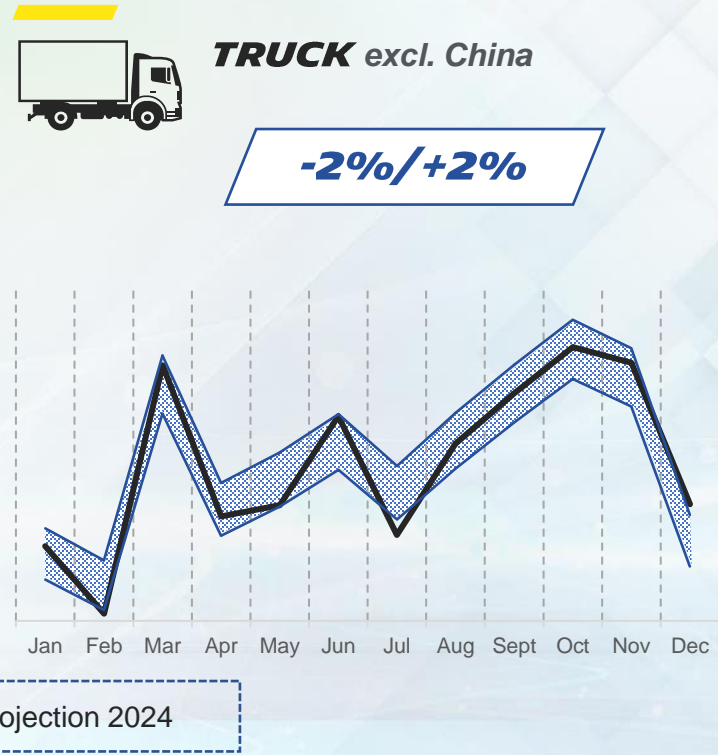

2024 tire markets scenario (sell-in) overall flat, with slight increase in RT and decline in OE

OE: decline in demand, mitigated by some restocking by OEMs in North America

RT: soft growth in demand with continuous market enrichment

OE: demand pulled down by new GHG regulation in North America that boosted sales in 2023, and challenged economic outlook in Europe

RT: slight growth driven by underlying transportation demand, stocks at normative level

SPECIALTIES

-2%/+2%

Mining tires: strong fundamental demand holds, markets impacted by stock fluctuations

Beyond-road tires: slight growth across RT businesses, while OE turns negative

Two-wheel tires: market growth in all regions reflecting consumer demand

Aircraft tires: normalized growth with strong 2023 reference base (back to pre-Covid level)

Tire and road wear particles (TRWP): definition and state of knowledge

SCIENTIFIC STUDIES HAVE STARTED TO MEASURE THE ENVIRONMENTAL IMPACT OF TRWP ⁽¹⁾:

AIR

Studies confirm that TRWP account for only a very small proportion (<1%) of particulate matter pollution

WATER

Studies suggest that most TRWP never reach estuaries.

Michelin is strongly in favor of a regulation that would limit the level of wear particle emissions of all tires worldwide → work in progress with ETRMA⁽²⁾ members in order to :

- define a standardized TRWP emission rate test method
- promote a threshold regulation and eliminate the less performing tires from the market.

(1) TRWP are tiny debris generated by abrasion from a tire's contact with the road surface. This abrasion is caused by the tire's grip and keeps the tire safely on the road. For more information about TRWP, [see the following document](#)

(3) Per hectare

(4) Other than natural rubber ; Impacts of raw materials identified through Life Cycle Analyses (LCA)

Sustainable natural rubber by Michelin: driving progress across a fragmented value chain

ID CARD

~90% of Group's supply come from ~2 M farmers with an average farm size of 3 Ha

Up to 7 middlemen between direct suppliers and smallholders in Asia

~150 direct suppliers

Global presence in Brazil, Indonesia, Thailand & West Africa (including joint-ventures):

- 85,000 ha. of plantations
- 15 rubber processing plants
- 500,000 tons/year production

GPSNR Founding member
(Global Platform for Sustainable Natural Rubber)

ACCELERATING SUSTAINABILITY ACROSS THE INDUSTRY BY 2025

- **Dedicated roadmap** tracking commitments on zero deforestation, human rights, and farmer empowerment

EXTENDING ASSESSMENTS OF PRACTICES ACROSS THE VALUE CHAIN : 2022 ACHIEVEMENTS

- **Direct suppliers via EcoVadis:** 97% of expenditures assessed, 94% "ESG mature"
- **Indirect suppliers :** RubberWayTM app. deployed at 83% of suppliers (in volume) in 2023

IMPLEMENTING IMPACTFUL PROJECTS

- **Brazil**
 - Increase harvest while preserving the forest (767,600 hectares)* - 1,000 families in Amazonas
- **Indonesia**
 - improve skills of 1,000 smallholders using RubberWayTM app. by 2024 – (with Porsche)
 - East Kalimantan : train 2,000 farmers by 2024
- **Sri Lanka**
 - improve skills & sustainability performance of 6,000 smallholders by 2025, impacting ~30,000 people
- **Thailand**
 - helping 1,000 farmers diversify their income with agroforestry by 2025**
- **West Africa (with joint-venture)**
 - ~90,000 farmers trained per year

Reduction of CO₂ emissions, VOC⁽¹⁾ emissions and water withdrawals: 2023 achievements exceeded ambitions

EXTERNALITY COSTS EVOLUTION

(€ millions)

(1) Volatil Organic Compounds

(2) Inbound and outbound transportation and distribution of natural rubber, semi-finished products and finished product

(3) Corresponds to 2023 target of approximately €300m announced at the CMD on April 8, 2021, adjusted for the ton of CO₂ valued at €120/t

Michelin applies the recommendations of the Task Force on Climate-Related Financial Disclosures (TCFD)

MICHELIN'S ANSWER

See p. 175 of 2022 Universal Registration Document for more details

Detailed information concerning the application of TCFD recommendations may be found in the public answers to the CDP Climate Change 2022 questionnaire (see <https://www.cdp.net/en/responses>).

GOVERNANCE

As part of the Supervisory Board's role of exercising permanent oversight of the Group's management, the CSR Committee began to review the climate strategy and issue recommendations.

STRATEGY

Four climate scenarios comprising narrative descriptions and quantitative socio-economic and physical assumptions were updated, deepened and deployed for use at two levels:

- by the business lines, regional organizations, operating units, corporate departments and other units as part of strategic thinking and ideation exercises,
- by the Group Executive Committee, to compare them to Group strategy and analyze their resilience about climate change and other indirect risks arising from the environmental transition.

RISK MANAGEMENT

In 2021, an initial internal audit of systemic physical risks was performed and the first pilot study of the vulnerability of certain Group operations was completed.

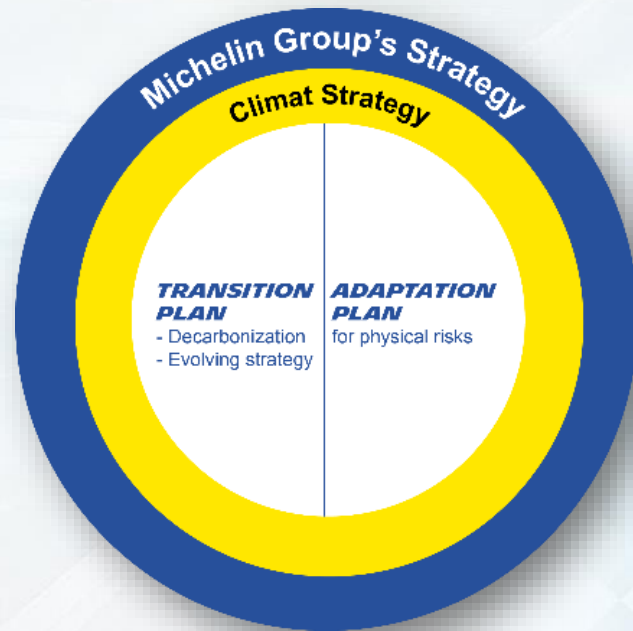

METRICS AND TARGETS

Joining the "Race to Zero" campaign, answering the call to action led by the Science Based Targets initiative (SBTi), the United Nations Global Compact and We Mean Business, by committing to reach net zero emissions by 2050.

Climate strategy structured around transition and adaptation plans, towards Net-Zero emissions by 2050

STRUCTURED AROUND 2 AXES:

- A **TRANSITION plan** including initiatives to decarbonize direct and indirect activities in the value chain (Scopes 1, 2 & 3) and a strategic plan to support a low-carbon economy
- An **ADAPTATION plan** responding to physical impacts of climate change

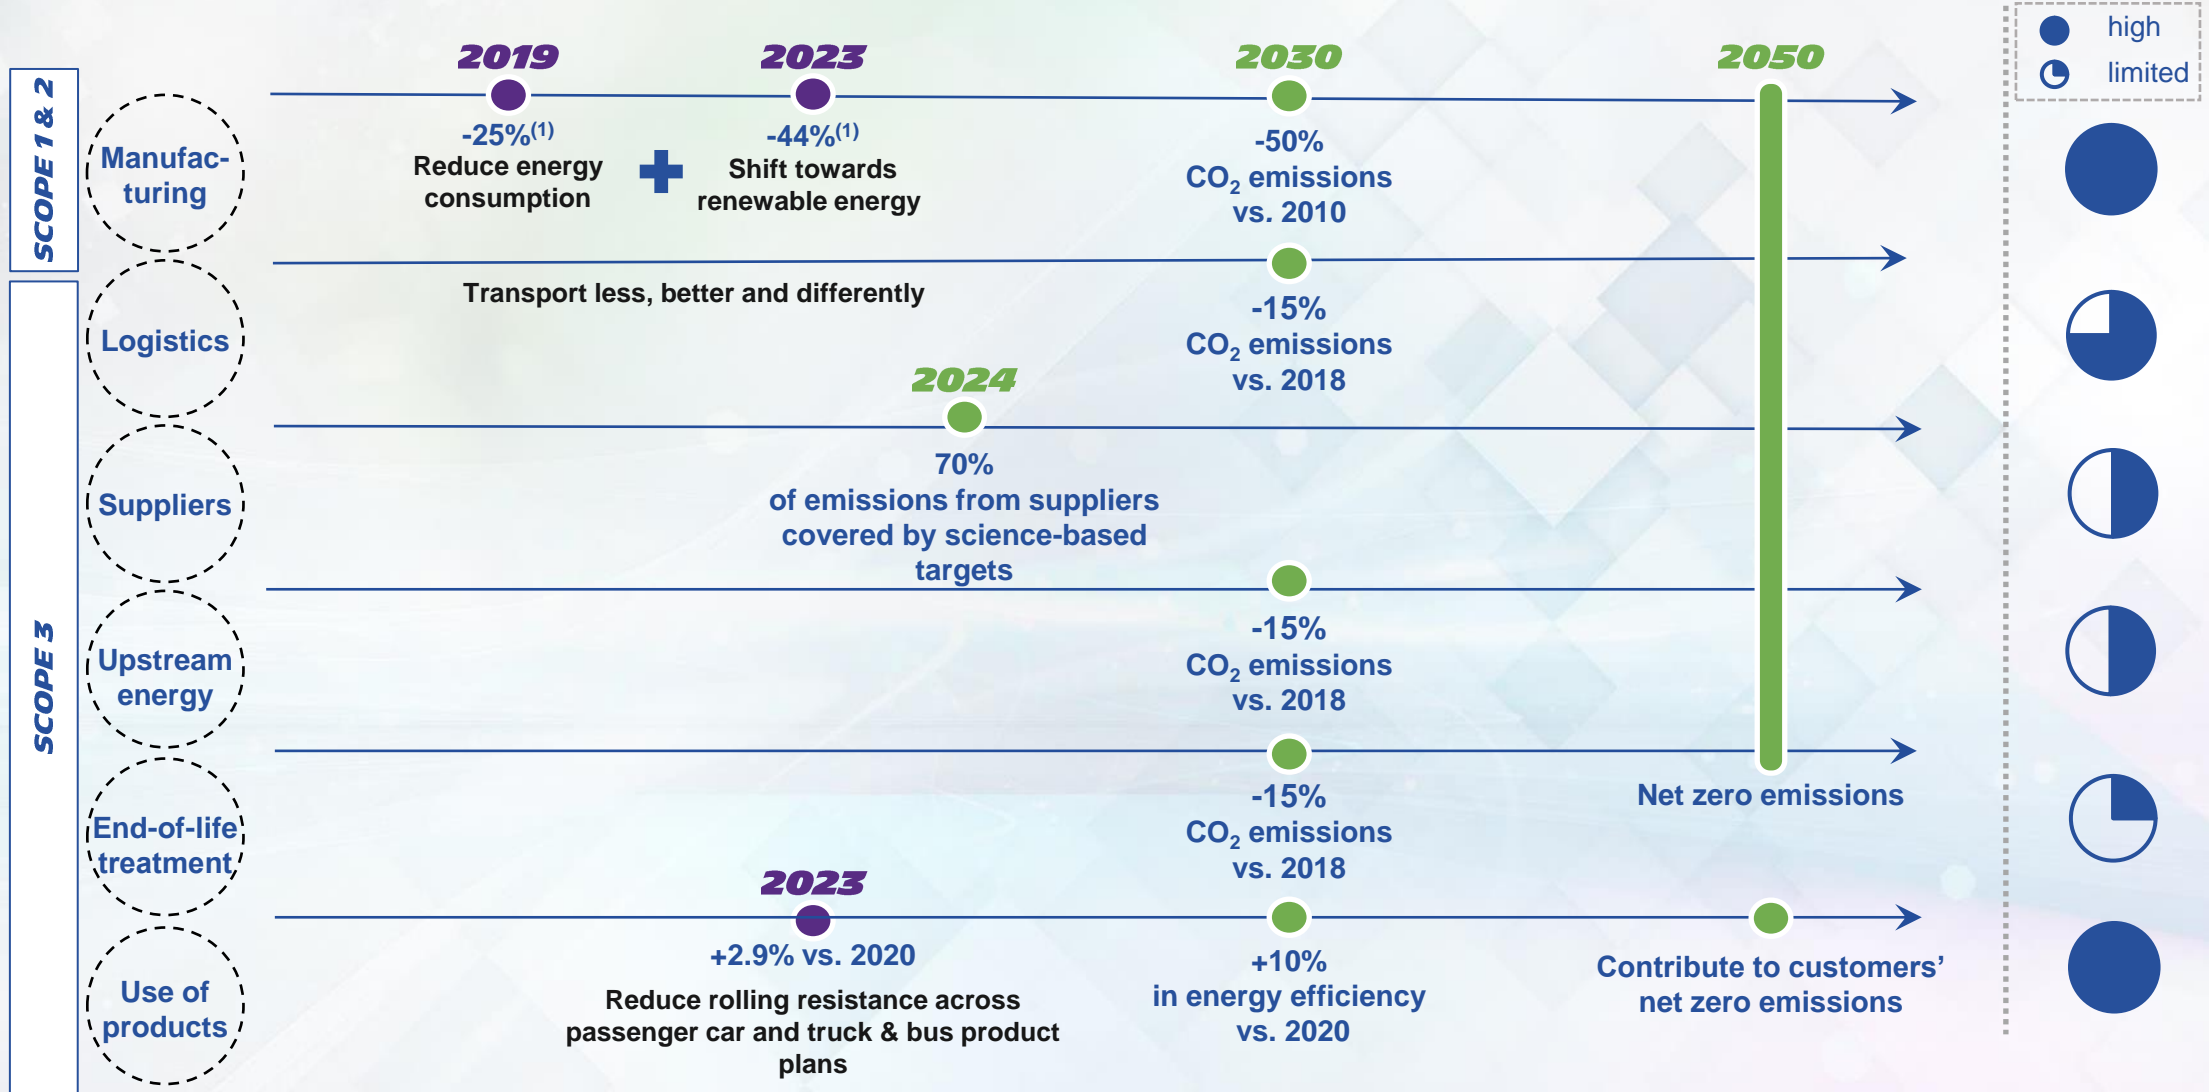

BASED ON 3 PRINCIPLES:

- **Achieve net-zero emissions by 2050** by fulfilling our external emission reduction commitments by 2030,
- **Identify risks and opportunities** based on climate change scenarios,
- **Transparently disclose information** to our external stakeholders.

2030 environmental ambition: on the path to reach net zero emissions in 2050

Group's ability to have an influence

(1) CO₂ emissions vs. 2010 ● Results ● Ambitions

Sharp reduction in the environmental footprint of our operations, on track to reach 2030 target

REDUCTION OF THE ENVIRONMENTAL FOOTPRINT OF OUR SITES

ISO14001- certified

Water withdrawal x water stress

Generated waste

Organic solvent use

Energy use

CO₂ emissions

(1) MEF: Michelin Environmental Footprint;

(2) i-MEP: industrial-Michelin Environmental Performance; see detailed definition p.152 of the 2022 Universal Registration Document

Universal social protection: since March 2022, deployment of the Michelin One Care Program

ESSENTIAL GUARANTEES IN THREE AREAS

GIVE EMPLOYEES TIME TO WELCOME A NEW CHILD

Compensated at 100%

- **Maternity and adoption leave:**
14 weeks minimum
- **Paternity leave:**
4 weeks minimum

PROTECT THE FAMILY IN CASE OF AN EMPLOYEE'S DEATH

Payment of a death benefit
(for employees with at least one year of base salary)

ENSURE ALL EMPLOYEES AND THEIR FAMILIES CAN ACCESS A HEALTH PROGRAM

Including at least:

- in-patient hospitalization
- maternity care
- out-patient and routine care
- emergency care

AMBITION: 100% of employees covered by the **Michelin One Care Program** by January 1, 2025.

Diversity and inclusion: progress in gender balance and acceptance of diversity, demonstrating the Group's commitment

EQUAL OPPORTUNITY

Every employee can develop his/her talents within the company. Michelin pays particular attention to the internal promotion of manufacturing operators.

DISABILITY

Michelin offers career paths to people of all abilities according to its talent development policy.

MULTI-NATIONAL MANAGEMENT

All our host country nationalities and cultures are represented in all corporate functions in the operating regions and at headquarters, in line with the geographical footprint of each business.

GENDER BALANCE

Achieve parity among Group executives and, by 2030, set the gender balance benchmark in our industry.

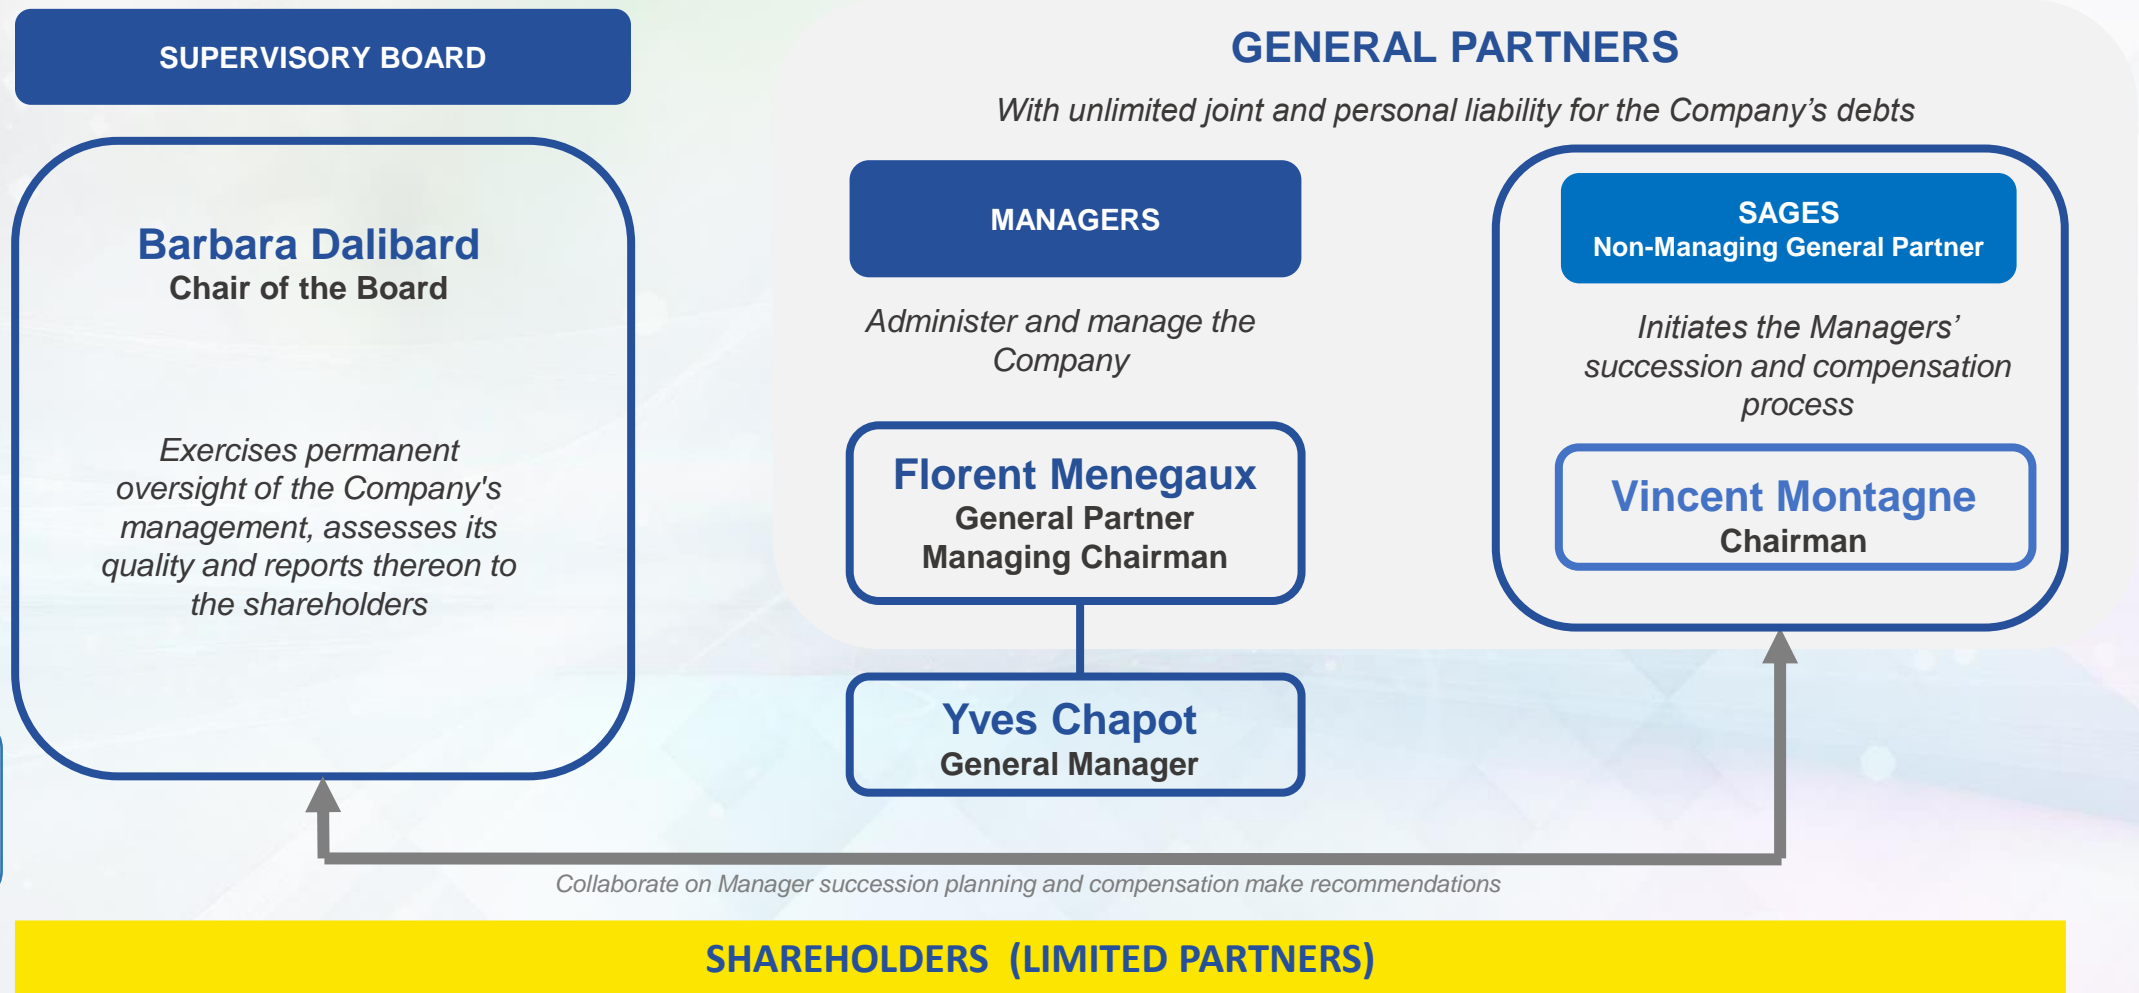

IDENTITY

All D&I⁽²⁾ aspects, (e.g., age, sexual orientation, ethnicity, religion, etc.) Enable every person to be who they really are and to bring their authentic selves to work.

(1) IMDI Management Index: see definition on p. 215 of the 2022 Universal Registration Document

(2) Diversity and Inclusion

Michelin governance pillars: clear segregation of management and supervisory powers

ESG awareness and oversight are fully embodied in Michelin's governance structure

ESG criteria are included in the Managers' compensation and shared with all employees via performance share plans

FLORENT MENEGAUX

Fixed compensation

€1,100,000

Benefit in kind (car)
€10,000

Annual variable compensation

Capped at 150% of fixed compensation

Deducted in full from the General Partners' 2022 Profit Share**

Consolidated
net income

4% of Profit Shares

Overall weighting up to 80% of fixed compensation

Quantitative criteria:

- Growth in **SOI** (25%)
- Growth in **structural free cash flow** before acquisitions (25%)

Quantifiable qualitative criteria:

- Deployment of the Group's **transformations** (10%)
- Employee safety – **TCIR** (5%)
- Percentage of **Women in management positions** (5%)
- Level of **CO₂ emissions** (10%)

The following are applied to each criterion:

- a trigger point, below which no compensation would be due
- a target, if the target is met, 100% of the compensation for the criterion would be payable
- an outperformance tranche, between 100% and 150% of the objective
- an intermediate tranche between the different points (compensation prorated to the achievement rate for the objective)

Performance share grants

Subject to performance conditions over 3 years

- ✓ Allocation limited to 0.05% of Company's share capital
- ✓ Capped at 140% of annual fixed compensation

1. Market performance: Michelin's share price vs. change in the Stoxx Europe 600 index (annual average)

Weighting: 30%

2. CSR performance

- i-MEP, Industrial – Michelin Environmental Performance
- Employee engagement

Weighting: 40%

3. Operating performance: Sales growth excluding tires and distribution and **ROCE**

Weighting: 30%

- Requirement to hold 40% of the vested shares for as long as the Managers remain in office
- Shares may only be delivered if the Profit Share has been distributed in respect of the year preceding the one in which the shares are issued

ESG incentives

FREE CASH FLOW (FCF)

Free cash-flow excluding M&A: free cash-flow, which is stated before dividend payments and financing transactions, corresponds to net cash from operating activities less net cash used in investing activities, including JV financing, adjusted for net cash-flows relating to cash management financial assets and borrowing collaterals. M&A-related cash-flows and repayment of IFRS 16 debt are not included.

ROCE

Return on capital employed is measured as follows:

net operating profit after tax (NOPAT) (1), calculated at a standard tax rate of 25%, corresponding to the Group's average effective tax rate; divided by average economic assets employed during the year (2), i.e., all of the Group's intangible assets, property, plant and equipment, loans and deposits, investments in equity-accounted companies, and net working capital requirement.

TIRES SALES

Correspond to sales from Michelin's core business, including the Tire as a Service (TaaS) business and Distribution operations.

NON-TIRE SALES

Correspond to sales from the Services and Solutions (excluding TaaS and Distribution), Conveyor Belts and High-Tech Materials businesses, excluding joint ventures.

(1) NOPAT = Segment operating income + amortization of acquired intangible assets + the Group's share of profit from equity-accounted companies

(2) Average between the opening and closing balance sheets for the year

This presentation is not an offer to purchase or a solicitation to recommend the purchase of Michelin shares. To obtain more detailed information on Michelin, please consult the documents filed in France with Autorité des marchés financiers, which are also available from the [Michelin.com](https://www.michelin.com) website.

This presentation may contain a number of forward-looking statements. Although the Company believes that these statements are based on reasonable assumptions as at the time of publishing this document, they are by nature subject to risks and contingencies liable to translate into a difference between actual data and the forecasts made or inferred by these statements.
